

### **2023 Special Project – Technology Fund**

Our camp budget is pretty lean. We look to Rotary Clubs and Community Futures offices for our major contributions and to other sponsors for both cash and in kind.

There is no cell service at Eagles Nest Ranch and access to internet is limited due to location. Our goal for the tech fund is to provide up-to-date simple, yet reliable laptops/devices for word processing and spreadsheeting to the teams and for the camp office. At the same time, to improve our camp's emergency response plan, we are looking to acquire 12 walkie-talkie radios for use, primarily at night, between the distributed bunk houses and the camp medic located at the main building.

Our goal is to raise \$10,000 in this Silver Anniversary year. We are reaching out to our Rotary, Community Futures, camp alumni and personal contacts.
